Bet365 app offers the most progressive Responsible Gambling system among competitors. We highly recommend that you set up the system settings after you register your account and before you start betting. This will allow you to control your bets, your spendings and your gambling time. With the introduction of this operator into the wider market, fans have a clearer understanding and appreciation of the Responsible Gaming mechanism. This mechanism involves a whole set of measures and actions by business operators, which in general are aimed at both protecting the interests of players and the industry.

Let's understand exactly how the Responsible Gambling service works and what it really protects players from?

When registering a new account in the Bet365 app, the player receives an email. The email contains information about the welcome bonus. At the bottom of the email, the bookmaker already starts informing the customer about possible gambling problems and offers to set up self-limitations right away.

After a few minutes, another letter arrives, entirely devoted to the problem of responsible gambling. It is hard to remember any other bookmaker who has so insistently promoted responsible gambling from the start.

Next, the player is prompted to set the self-restriction policy settings. This, as well as the Responsible Gambling module, is all about ensuring that the user has a positive experience with the Bet365 website and app.

### Sports Betting on Bet365 App

Bet365 is the best betting company in the world. This is not a private opinion, nor is it biased. It is an official title that Bet365 has held for many years. Of course, the betting line here matches the bookmaker's high-profile status.

On the website and in the Bet365 app, you'll find a plethora of sports to suit all tastes, from the most popular to the exotic.

You can bet on over 25 different sports here, with minor leagues, amateur, youth and women's events. Among them, you can find disciplines such as cricket, darts, hockey, ski jumping and the like. There are separate sections for cyber sports, winter sports and special bets. The latter include betting on elections, other political events, various competitions and the Eurovision Song Contest. There are also virtual sports, betting on long-term events such as the outcome of championships.

Bet365 is not used to colourful design and ubiquitous banners – everything here is done with English restraint and no extraneous details prevent you from concentrating on the action.

Both pre-match and in-play, there's always plenty of action in each sport. The odds are pretty high compared to the competition and the company's team of professional analysts develops the lineup themselves on a daily basis, leaving the crowds of wannabes behind.

Bet365 shows live streaming of football, basketball, hockey, cyber sports and more than 15 other official disciplines. However, only registered users with a plus deposit can watch the video broadcasts. However, it is not compulsory to make a bet. Broadcasts are available in the "In Play" section.

Regardless of the sport, there is almost always at least one betting option other than the main outcome. It can be a double chance, a handicap or a total. But for more or less popular events there are usually at least 50 types of betting, and the total number of match events on which you can bet is at least 300. Champions League, NHL, major tennis and cricket tournaments always offer 500 markets or more.

### How to Place a Live Bet

Bet365 app has an elaborate live mode. The match centre is available for full sports monitoring – there are results, statistics and tournament tables.

High quality video broadcasts are available for most events.

The creators of this mobile tool have tried to make the betting process as simple and convenient as possible, and they have succeeded. Indeed, it is very easy to make bets by using it, which requires the following actions:

Choose a particular sporting event from the presented options;

Select the type of bet, indicate the size of the bet and confirm the action;

In case your bet is successful, that is, you correctly predict the outcome of an event, the money according to the odds of the event will be transferred to your account.

Type of Sport Coefficients Football High quotations for the main outcomes. Average margin is 8%. Tennis Average odds on all types of outcomes, 10% margin. Volleyball Average odds for all outcomes. The margin is 8.5%. Basketball Average odds, the bookie's margin is 9%. Hockey High odds, the margin is no higher than 7.5%.

The table above shows some of the popular sports and their in-play performance. This mode is one of the main advantages of this bookmaker. The calculation is done within 5-15 minutes after the passing of the event.

### Betting on Cricket

Cricket for the average betting fan appears to be the most difficult sport to understand, with many details in the rules. The game originated in England and is popular in former British colonies:

Australia, India, Pakistan, South Africa, New Zealand and other Asian countries. Betting on cricket, despite its complexity, is still justified by the little interest bookmakers have in analysing matches. However, there is one nuance. If you think in terms of a Westerner, then yes, cricket is unlikely to be in the top 10 for betting. However, here in India, it is the number one sport. And what a stroke of luck that the number one sport has met the number one bookmaker, resulting in a remarkable product, namely the best cricket betting service.

The rules of cricket are similar to baseball, with players from both teams trying to hit balls off each other's pitches with special bats, but apart from that, the sports have little in common.

The main types of cricket betting in the Bet365 app:

Betting on the winner of the match. The standard outcome, which offers you the choice between W1 X W2. Tie outcomes rarely, but still happen, in which case we advise you to read the rules on calculating draws in cricket.

Betting on totals. You can bet on the number of runs scored by the teams in the whole match or a certain number of overs.

Handicap betting. Handicap bets are similar to those offered in other sports.

Inning betting. Cricket matches can last for days on end, so short-term live bets are ideal for those who like it all at once.

Betting on stats and individual player performances.

In addition, you can bet on the winner of a particular tournament, both before and during the competition.

Cricket matches can last anywhere from 1 to 4 days, so the physical condition of the players comes into play. The format varies from country to country and teams may perform with varying degrees of success. However, in any case, the home field factor has an impact on the result of the performing teams. When placing cricket bets, it is worth considering the weather conditions, team flights and other important factors affecting the outcome of the game.

By the way, the live mode in Bet365 mobile app is done to a very high standard. You can access the in-play section to see all the available matches going on right now and you can place any bet on the markets on offer.

As for the leagues themselves, there is of course the Indian Premier League, which is considered the strongest in the world. Plus, you can bet on the championships of Bangladesh, Australia, South Africa, Great Britain and many other countries, as well as international competitions.

#### Bet365 Bonus

A section with all bonuses and promotions is located in the Extra tab. There is not just dry information about a couple of other bonuses, but a full article divided into sub-sections.

How to claim your Bet365 App bonus

Of course, you can't just get every bonus. If you want to take something, you have to give something away – it's an unwritten law of life and it applies to bookmaking too.

The following terms and conditions apply to the welcome bonus:

You must deposit a minimum of 400 rupees to be eligible for the bonus.

You have to make a qualifying bet before your bonus will be credited.

Your qualifying bet must have a multiplier of at least 1.20.

The bonus will be 15% of your qualifying bet.

The maximum bonus amount is 4000 rupees

There are no additional wagering requirements for the bonus.

As for the other rewards, it depends on many factors.

Let's start with the baseball betting bonus.

So, the procedure is as follows:

Place a pre-match win bet on one or more MLB, Japanese Professional Baseball League and Korea Baseball Organization games until and including Sunday, October 30, 2024.

For single bets – if your chosen team produces a lead of 5 runs at any stage of the match, you will be paid your bet in full, even if the opposing team eventually wins the match.

For multi bets – If the team you have bet on is leading by 5 runs, the bet will be marked as the winner on the "My Bets" page and the remaining outcomes are pending settlement.

Moving on. Improvement of the bet. Who wouldn't want to add a few percent to an express?

Bet365 gives you that opportunity. Move on to a sports classification or event.

Events with available "Improvement Bets" markets will be marked with a green arrow; the available Improvement odds will be shown in the betting slip, with the original odds crossed out.

This bonus is only available to new players. You can find out if Betting Upgrades are available to you by logging in and selecting "Offers" in the app or under "Promotions" in the full version.

The following offer is simply stunning in its uniqueness and potential profitability. If you rarely bet on football, we suggest you take a closer look at this bonus.

So, let's get down to business.

This offer is available for matches played up to and including Saturday 31 December 2024, so you still have lots of time.

For single bets – If the team you bet on wins by 2 goals at any point in the match, you will be paid your bet in full regardless of whether the match ends in a draw or a win for the opposing team.

For multi bets and betting in "Bet constructor" – If the team you have bet on in the standard "Result of regulation time" market is leading by 2 goals, the bet will be marked as the winner on the "My bets" page and the remaining outcomes will be pending settlement.

If you say you've seen this elsewhere, no one will believe you and rightly so, because only Bet365 has this.

This offer is valid for more than 80 events, including of course the major European Championships and the upcoming FIFA World Cup in Qatar in November 2024!
